

## Project Management Intern

Occlutech is a renowned and innovative international medical device manufacturer specializing in developing life-saving solutions for patients worldwide.

**Position:** Project Management Intern (m/f/d) – Medical Devices

**Duration:** Long-term (1 year; 2 days a week)

### Role and Responsibilities:

- Assist in the documentation of project activities, ensuring accurate and organized records are maintained.
- Collect, process, and analyze project data, and contribute to data-driven decision-making processes.
- Engage with project management tools.
- Provide assistance to the Project Manager in various tasks.

### Qualifications:

- University last year or master's students pursuing a degree in engineering, biomedical sciences, or related fields.
- Strong passion for medical devices and eagerness to learn.
- Solid communication and teamwork skills.
- Ability to work independently and contribute effectively to team discussions.
- Able to work at least 2 days a week.

### What's in it for You:

- Valuable hands-on experience working on real-world medical device projects.
- Opportunity to learn project management basics.
- Professional development and mentorship opportunities in a global medical device manufacturer.
