

Clinical Project Manager (m/w/d)

Occlutech is a leading specialist provider of minimally invasive cardiac devices, with a mission to improve the quality of life for people with heart conditions. The vision is to become a global leading specialist provider in cardiac devices, addressing congenital heart defects, stroke prevention, and heart failure. Occlutech has a broad and proven portfolio, based on proprietary technology, and over 200 patents with more than 139,000 products sold. The company markets and sells its products in circa 85 countries and has around 350 employees.

We are offering a position in the medical device sector with ambitious and passionate people building meaningful products for patients all over the world. Our work environment is agile and allowing for collaboration with smart people and knowledge sharing in cross functional teams. As a fast-growing organization, we provide ample room for development and our remote work policy allows for more flexibility for our employees.

Your work will focus on

- Conducting clinical trials, clinical studies and registries according to all applicable regulations and guidelines
- Planning, preparing and managing of all monitoring related activities and performance of monitoring of trials / registriy sites.
- Assisting in study audits
- Communication between investigators and site staff at Occlutech
- Providing regular updates to Clinical Research Manager
- Contributing to the Occlutech QM system

We are looking for a candidate, who

- Has a university degree (min. Bachelor) preferably Master's degree in life science or engineering or natural sciences
- Has at least 3 years of professional experience as Clinical Project Manager in the medical device industry
- Has knowledge of and practical experience of relevant government regulations, standards and guidelines
- Communicates well in German and English
- Is able to work independently, adapt to changing tasks in a fast and dynamic work environment and manage multiple tasks
- Is a team player who likes to work in a dynamic international environment
- Has good organizational, interpersonal and problem-solving skills and is able to

Occlutech GmbH Jena
